INVALID FURNITURE.

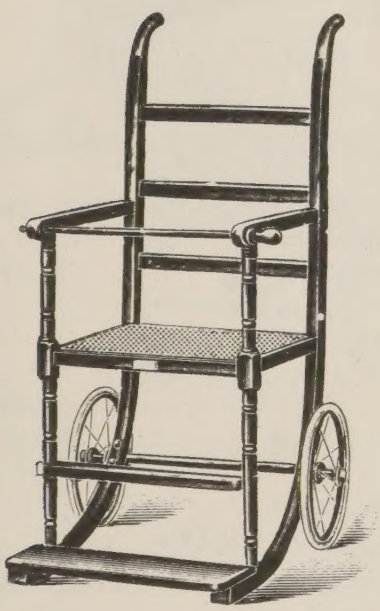
2379A
"A" QUALITY.

2379B
"B" QUALITY.

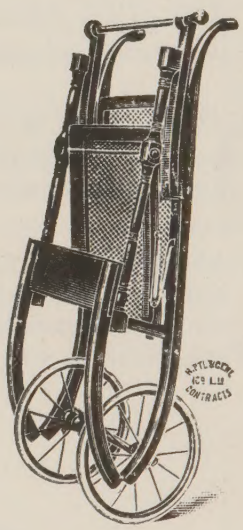


2379C
"C" QUALITY.

THE "EASTBOURNE" IMPROVED INVALID CHAIR (Patent), specially designed for wheeling up or down stairs.

This Chair is designed for the easy and ready conveyance of Invalids from room to room or up and down stairs, and is peculiarly suitable to patients subject to nervousness, or to whom shaking or jolting may be injurious. It moreover obviates much of the fatigue which is inseparable from the ordinary carrying chair.

By its use a patient of ordinary weight can be taken from room to room by one person only, or up or down stairs by two persons without strain or fatigue.



2379D
"D" QUALITY.

2379A	"A" quality, width 17 inches	£8 15 0
2379B	"B" quality, width 17 inches	7 10 0
2379C	"C" quality, width 17 inches	5 15 0
2379D	"D" Folding and with cane back	9 15 0

If with width 19 inches an extra charge of 11/6 per chair.

INVALID FURNITURE.

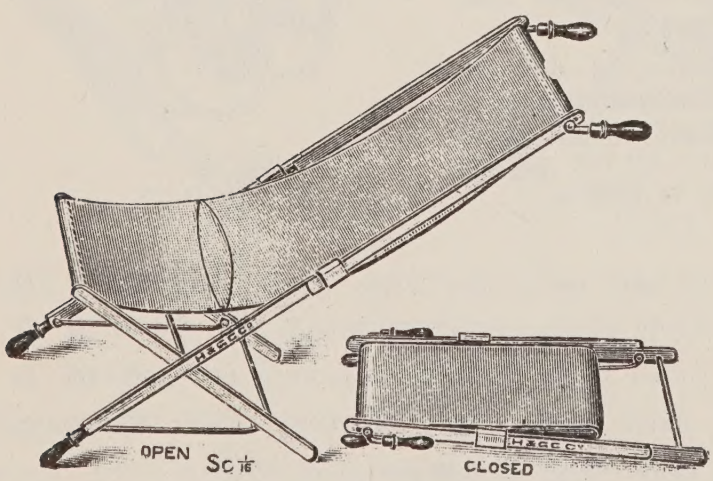
2375. CARRYING CHAIR. The handles of this chair slide under the seat when not in use, and are not hinged. Legs unscrew. In birch £2 19 6

2376. CARRYING CHAIR. This Chair is especially adapted for travelling, and can be folded and stowed away in a small compass, all parts being strongly hinged. Legs with castors unscrew. Caned back and seat. Price, birch, any colour 5 17 6

2377. CARRYING CHAIR. Strongly made, well polished, caned back and seat. Light, and folds into little space, yet strong enough to carry 13 stone. A most convenient chair when travelling. Price, Oak 3 17 6
Birch, polished walnut 2 9 6



2378

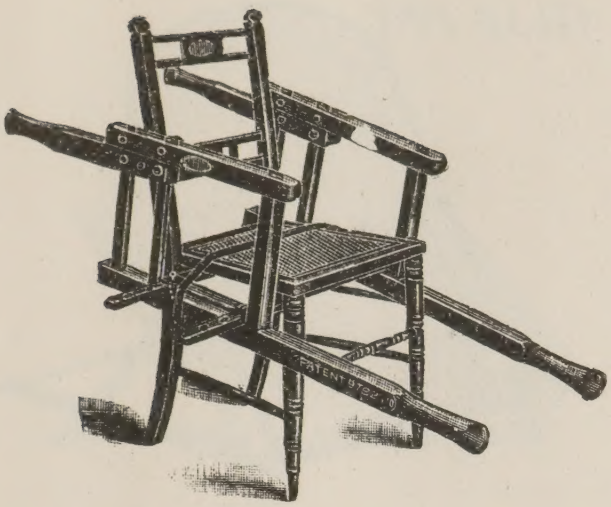
2378. CARRYING CHAIR, strong and light, made of steel. White enamelled or aluminium, painted, with strong water-proof centre.

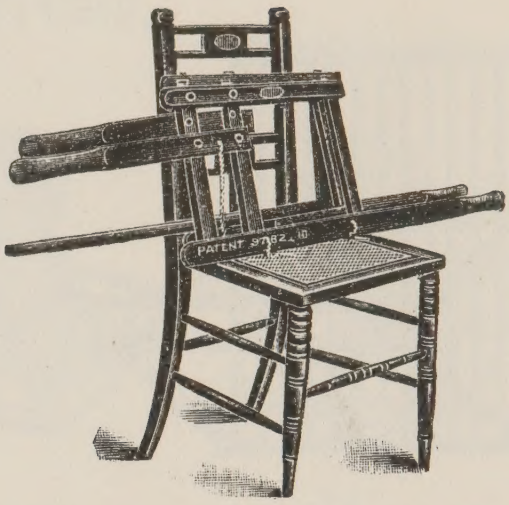
Price ... each £3 5 0

As made by us for the Metropolitan Asylum Board.

Size when folded, 27 by 18 by 3 ins. Weight, 14 lbs.

INVALID FURNITURE.



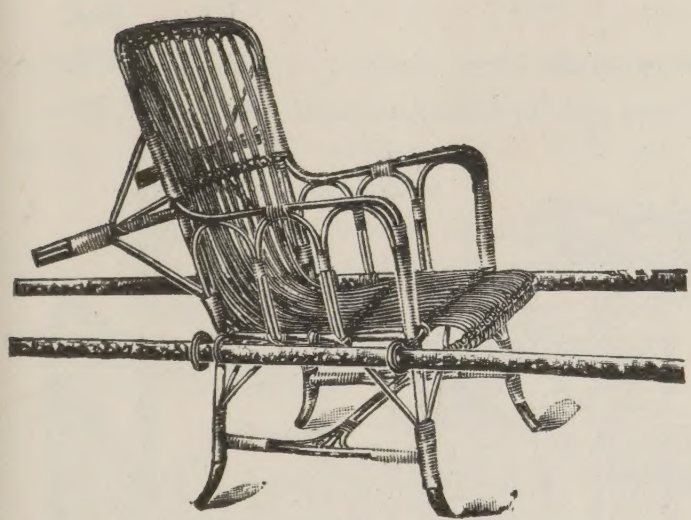


THE QUANTOXHEAD CHAIR-CARRIER (Patent 9782/10) is an appliance designed to fix on any ordinary household chair, immediately converting it into a carrying chair.

The rear handles can be raised or lowered as desired, by simply drawing out a brass pin, placing the handles in the required position, and re-inserting the pin. When not in use the carrier folds up, as shewn in the illustration.

It should be invaluable in District Nursing or Ambulance work, as it is very portable (weighing about 8 lb.), but it would prove of equal value in any house where a carrying chair is not in every day use, or where space is a consideration.

Price in ash, polished 42/-



2374

2374. CARRYING CHAIR, cane, with removable bamboo poles 35/-

Ditto, extra strong 39/6

2374

2374. THE LANSDOWN BED REST (PATENT). a new up-to-date Bed Rest, made in strong sail cloth, which is pliant and soft to the back. Very simple and cheap, and the following are some of the advantages claimed :—

1. Easily adjusted into two positions.
2. Can be fixed to any bedstead.
3. Easily disinfected or washed, preventing infection, dirt or smell.
4. Portable, and can be easily placed in position or removed without disturbing patient.
5. There are no metal parts to get out of order.
6. It moulds itself into the shape of the body, thereby giving the most tender parts perfect rest.
7. It saves the expense of air or water pillows.
8. It is cheap and simple, but very durable.
